

Texas Mission Builder's Report to the MBA of Texas

Texas Mission Builders have been busy this year amidst navigating the challenges brought on by Covid-19. Our volunteers have remained sensitive and flexible to the needs of the churches as we continued to build, with only a short lapse in production maneuvering through the "Stay-at-Home" order at the onset of the pandemic. We thank you for your continued prayers during these difficult times as we continue to move on to waiting projects.

At the time of this report the projects worked on this year are:

College Station MBC, College Station
Woodville MBC, Woodville
New Hope MBC, Hardin
Pine Springs Baptist Camp, Laneville
Berea Baptist Mission, Del Rio
Holleyman Chapel, Maydelle
Texas Baptist Institute, Henderson
Two Grey Hills, New Mexico
North Loop MBC, Crockett
Liberty MBC, Pittsburg

Thank you for giving TMB the opportunity to work alongside these missions and churches as they go forward to carry out the great Commission. We truly receive great blessings by laboring with them.

With the job list steadily growing, the need for additional workers is great. As always, we pray for more volunteers to join the work with us. No experience necessary. If you have time, come to one of our jobsites and let the Lord bless you.

The Regular TMB workers want to convey their appreciation to all the churches and people who have supported them with prayers, special offerings, co-laborers, encouraging words, and friendships. You are God's hands and feet in this great work of the Lord.

Continue to pray for our sponsoring church, Eastside Missionary Baptist Church at Jacksonville, and the board of Directors as they lead and direct this great work of the Texas Mission Builders.

Respectfully Submitted,
Bro. Mike Pearson
Supervisor
