

## **Texas Mission Builders Report to the MBA of Texas**

2021 has brought many challenges to the Texas Mission Builders. With Covid affecting every area of life, making constant adjustments has become a daily task. So many of the projects that were already scheduled have had to be halted or completely changed. The projects that were able to continue saw the cost of materials triple. Churches that had planned major construction have had to downsize their plans, and in some cases, completely abandon their project goals. Some of the downsizing has created a demand for minor remodels, which has kept our cabinet shop very busy. Nevertheless, the Lord's work has gone on amid these challenges and we are thankful for each one we have had the pleasure of helping. The projects we have worked on this year are:

North Loop MBC, Crockett  
Creekmont MBC, LaPorte  
Eastside MBC, Mt. Pleasant  
Grace Temple MBC, Mt. Pleasant  
TMB Shop Repair, Laneville  
Eastside MBC, Jacksonville  
TBI Student Housing, Henderson  
Roquemore MBC, Henderson  
Pruitt Lake MBC, Avinger  
Heritage MBC, Center  
Suburban Acres, Silsbee  
Lifeway MBC, Cuero

We would like to thank all our volunteers who came to help this year. You are essential to the success of this organization. Please be in prayer for the TMB workers as they travel and labor each week. We are always in need of volunteers willing to help with the work. If you have some time available, please consider joining us on some of our projects. There is always work to be done for the Lord within the Texas Mission Builder's program. Our jobsite progress is frequently updated on our Facebook page and website.

We welcome Bro John Bryant, Pastor of East Side MBC in Jacksonville, as he leads Eastside as they sponsor the Texas Mission Builder's program. The Board of Directors and Eastside MBC have dedicated many years of time and effort making sure this program runs smoothly. Continue to be in prayer for them that the Lord will bless their faithful efforts. Thank you churches for your continued support. Without your sacrifice this work could not go on. To God be the Glory.

Respectfully Submitted,

Mike Pearson

TMB Supervisor
